

The Shore Club Semi-Monthly News

January 15, 2010

Submit your Vote for the Antennas- We need 66% of the membership to vote YES to install the antennas. Please submit your vote prior to February 9th. The board recommends a “Yes” vote.

Facts about the wireless antenna:

- * The installation of a 4 ft. antenna will generate over \$100,000 in the first 5 years.
- * The frequencies the antennas generate is extremely low and well below FCC limits. For more information, see Marylou in the South office for an article addressing any health concerns.
- * The unit would be serviced only 1 time per month during normal operating hours or in the event of an emergency, same access as granted to all vendors. All standard security procedures will still be followed.

A Clearwire representative came to the Shore Club and responded to resident's questions and concerns on January 20.

Carts- We are in the process of refurbishing the security mechanisms for our shopping carts. The salt air has damaged several of the units, particularly in the south building garage area. These specific carts will be re-located shortly to an area in the garage which won't be subject to as much wind as its current location. New carts / refurbished locks will be installed shortly. The carts on the upper deck will continue to be stored in their current location.

Annual Meeting- The 2010 Annual meeting will be held Tuesday, February 9, 2010 at 7:00 PM in the club room. Please remember turn your election ballots in by the 9th.
