

# The Shore Club Semi-Monthly News

May 15, 2010

**Need Insurance Certificates?** You can now contact Advanced Insurance's certificate department by phone 954-416-9776 or by emailing your request to

[certificateofinsurance@advancedins.com](mailto:certificateofinsurance@advancedins.com)

**Summer is Here!** The summer flowers are scheduled to be planted the week of May 17th.

**Be Prepared-** Hurricane season starts June 1; a copy of the association's hurricane plan will be distributed at the end of May. All residents are encouraged to have their personal hurricane plans ready before the season begins.

## Reminders For Snow Birds & Those Leaving For Vacation:

\*Please notify Security that you are leaving. Let them know who is watching the apartment for you.

\*Make sure the office has a correct copy of the key to your unit.

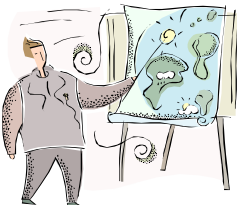

\*It is recommended that the thermostat be set at 75 degrees to prevent mold and mildew.

\*Do not leave personal items in the catwalks or elevator foyers. Items left in the foyer will be thrown out.

\*Turn off the main water valve. The water valve is located above the water heater in the utility room.

\*Shut the hot water heater off from the circuit breaker panel. In most apartments, it is the #4 and #6 breaker

\*Close and lock all of your shutters. Please leave the key for the shutters and your vehicle on the dining room table.

**Weather Station-** There is a new pool thermometer and weather station located on the pool bulletin board. Check it for updates on weather conditions and for a reading of the pool's temperature.
